

ASHOK KUMAR.M

Junior Web Developer

82481 14723 | ashokkumarimurugan3197@gmail.com | Chennai, Tamil Nadu

PROFILE SUMMARY

Junior Web Developer with 2+ years of experience in developing responsive and scalable web applications using PHP, React JS, WordPress, and JavaScript. Strong understanding of MVC architecture, REST APIs, and database-driven applications. Experienced in working with U.S.-based clients and delivering production-ready solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React JS, Bootstrap 4/5, jQuery

Backend: Core PHP, MVC Architecture, REST API Integration

Database: MySQL

CMS: WordPress

Tools & Others: Git, Automation Testing, Visual Studio Code

PROFESSIONAL EXPERIENCE

Rifluxyss Software Pvt Ltd — Software Developer (Sep 2022 – Feb 2025)

- Designed and developed responsive web pages and reusable templates for U.S.-based clients.
- Worked extensively on BreakthroughBroker and YourMarketing platforms.
- Integrated third-party APIs, MLS systems, Google Maps, and address-based search features.
- Migrated 200+ legacy templates to modern, mobile-first responsive layouts using Bootstrap 5.
- Participated in client demos, weekly status calls, and requirement discussions.

DETAILED PROJECT EXPERIENCE

BreakthroughBroker (USA Client)

- Developed and maintained a large-scale marketing platform for real estate professionals.
- Built responsive marketing templates including flyers, postcards, brochures, letters, and social media creatives.
- Implemented automation for printing, mailing, Facebook publishing, and PDF/PNG generation.
- Integrated MLS data feeds and Google Maps for property search and location-based features.
- Used PHP, MySQL, JavaScript, jQuery, HTML5, CSS3, Bootstrap, and WordPress.
- Improved UI/UX, performance optimization, and cross-browser compatibility.
- Collaborated directly with U.S. stakeholders for demos, feedback, and feature enhancements.

TEMPLATE MIGRATION PROJECT

- Migrated 200+ legacy templates into modern, mobile-first responsive designs.
- Created reusable components to reduce development and maintenance effort.
- Added form validation, dynamic fields, and interactive UI elements.
- Conducted unit, integration, and automation testing to ensure quality delivery.
- Documented workflows and best practices for team handover.
