Summary	Motivated Backend Developer with hands-on experience in Java (Spring Boot, Hibernate) and PHP (Laravel) . Strong understanding of OOP, MVC architecture, REST APIs, and database-driven applications. Skilled in building scalable web applications, designing efficient database schemas, and writing clean, maintainable code. Experienced with Postman, Git, Maven, and Agile development practices. Passionate about solving real-world problems and adapting to new technologies quickly.	
Experience	Aspire Systems (India) Pvt Ltd Trainee April-2025 Vellore - Collaborated with cross-functional teams in Agile environments to solve real-world coding problems.- Debugged backend issues and tested API functionalities using Postman and logging tools.- Improved code quality through consistent testing and exception handling.- Documented solutions and participated in sprint planning and code reviews.- Gained exposure to system-level debugging and performance profiling tools.	
Skills	Programming Languages Core programming skills in PHP PHP syntax, variables, arrays, strings, functions OOP in PHP (classes, objects, inheritance, interfaces, traits) Frameworks & Architecture Laravel Framework, MVC Architecture in Laravel, Laravel Eloquent ORM, Laravel Middleware, Routing, Controllers Laravel Authentication & Authorization, Basic Microservices understanding (optional) Web Services Building and consuming REST APIs using PHP & Laravel, JSON APIs, HTTP methods (GET, POST, PUT, DELETE), API authentication (JWT / Sanctum / Passport – basic) Core Concepts OOP concepts in PHP, MVC Architecture (Laravel), CRUD operations using Laravel Eloquent, Exception & error handling in PHP/Laravel Web Technologies Frontend and server-side technologies HTML5, CSS, JSP, Servlet Database & PL/SQL SQL development and database operations Oracle SQL, PL/SQL, Stored Procedures, Triggers, Functions, Views, Joins, Indexes, Performance Tuning Tools & IDEs Developer tools and version control Eclipse, IntelliJ IDEA, Postman, Git, GitHub, Maven, VS Code	
Education	KMG College of Arts & Science Computer Science 6.7 2021-2024 BSc Tamil Nadu State Board HSC 7.3 2020-2021	
Projects	Employment Management System March 2025 A Spring Boot–based REST API application for managing employee information with MySQL integration. https://github.com/Haribaskargitip Developed a robust Employment Management System using Spring Boot, implementing RESTful APIs for employee data management. Designed an optimized MySQL database schema for reliable data storage and performed thorough API testing using Postman. Ensured proper handling of HTTP status codes, custom error messages, and logging for debugging. Followed Agile practices, contributed to sprint tasks, and maintained clean, reusable, and scalable code. Student Management System March 2025 A full-stack CRUD application developed using Spring MVC, Hibernate, and MySQL to manage student records efficiently. https://github.com/Haribaskargitip Developed a full-stack Student Management System with Spring MVC and Hibernate for backend logic and database integration. Designed and normalized MySQL database schema using Hibernate annotations. Implemented CRUD operations, MVC architecture, input validation, and exception handling. Ensured clean, reusable, and maintainable code while performing API and functional testing using Postman and JUnit.	
Certifications	Java Full Stack Development Course JSpiders June 2024 - Jan 2025 Accenture Australia – Technology Consulting Job Simulation (Forage) Forage August 2025 Trainee – Aspire Systems (India) Pvt Ltd Aspire Systems Apr 2025 - Jul 2025
