SUMMARY:

Accomplished Software Professional with **3.3 years of experience** in the platform domain, excelling in cross-functional collaboration, technical analysis, and independent contribution. Skilled in delivering high-quality solutions, driving project goals, and enhancing system stability through analytical problem-solving. Proven ability to work effectively both as a team member and as an individual contributor in fast-paced environments.

WORK EXPERIENCE:

Aventa Technologies: Sep 22 - Present

Designation: Software Test Engineer.

Roles & Responsibilities:

- 3.3 years of IT industry experience in Software Testing, covering Manual, **Functional, and Automation Testing using Selenium with Java.**
- Hands-on experience across all phases of the Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).
- Proficient in Test Planning, Test Case Design, Test Execution, and Defect Management.
- Strong expertise in preparing test scenarios, detailed test cases, and executing them efficiently.
- Experience in performing multiple levels of testing including Integration Testing, System Testing, and User Acceptance Testing (UAT).
- Skilled in automating test cases using Selenium WebDriver with Java to enhance test coverage and efficiency.
- Expertise in defect identification, logging, tracking, and retesting using JIRA until closure.
- Effective collaboration with Developers and Business Analysts for requirement clarifications and issue resolution.
- Possess excellent communication and interpersonal skills, with strong work ethics and a quality-driven mindset.

Project Details:

Project Title #2	Digital Retail Banking Experience Platform
Client:	Merdeka Retail Bank
Technologies	Java, Selenium WebDriver, TestNG, Maven, JIRA, Git
Project Description:	Worked on a digital banking platform used by retail banking customers to perform online account management, fund transfers, bill payments, card management, and loan applications. The system integrates with core banking services, payment gateways, and third-party verification systems.
Responsibilities:	• Analyzed functional requirements and user stories for retail banking modules such as login, account summary, fund transfer, and payments. • Designed and executed manual and functional test cases for critical banking workflows. • Automated smoke and regression test cases using Selenium WebDriver with Java. • Performed cross-browser testing and basic API validation for transaction flows. • Conducted Integration, System, and User Acceptance Testing (UAT). • Logged, tracked, and retested defects using JIRA until closure. • Collaborated with developers, business analysts, and QA teams to ensure defect-free releases.

Project Title #1	Omni Channel Retail Order Management System
Client:	Dublin Omni Retail Services
Technologies	Java, Selenium WebDriver, TestNG, JIRA, Git
Team Size	8
Project Description:	Worked on an Omni Channel retail platform used by leading Irish retail chains to manage online and in-store orders, inventory synchronization, promotions, returns, and customer loyalty programs. The system integrates with POS, warehouse management, and third-party payment gateways, supporting seamless customer experience across web and physical stores.
Responsibilities:	• Analyzed business requirements and user stories for retail modules such as product catalog, cart, checkout, and order fulfillment. • Designed and executed manual and functional test cases for pricing, discounts, offers, and return workflows. • Automated regression and smoke test suites using Selenium WebDriver with Java. • Performed cross-browser testing to ensure consistent user experience across Chrome, Firefox, and Edge. • Validated payment gateway integrations and order confirmation flows. • Conducted Integration, System, and UAT testing in staging and pre-production environments. • Logged, tracked, and re-tested defects using JIRA until closure. • Collaborated with developers, product owners, and warehouse teams to resolve issues efficiently.

EDUCATION

MBA

Madras University • Chennai, India

Bachelor of Computer Application (BCA)

Shri Krishnaswamy college for women
