

RANJITH R

Software Tester / QA Engineer

Email: ranjith0142r@gmail.com | Mobile: +91-7871226003 | Location: Aruppukottai

PROFILE SUMMARY

Entry-level Software Tester / QA Engineer with a B.E. in Computer Science and Technology and certification in Software Testing. Strong knowledge of SDLC, STLC, manual testing, functional testing, regression testing, smoke testing, system testing, test case design, defect tracking, bug reporting, API testing, and automation basics using Selenium and Java. Actively seeking a QA / Software Testing role to ensure software quality, reliability, and defect-free releases.

SKILLS

Programming:	Java, HTML, CSS, SQL (Basic)
Manual Testing:	Functional Testing, Regression Testing, Smoke Testing, System Testing, Test Case Design, Bug Reporting
Automation & Tools:	Selenium WebDriver, Postman (API Testing), Git
Methodologies:	SDLC, STLC, Agile (Basic)

EDUCATION

B.E. in Computer Science and Technology | Karpagam College of Engineering, Coimbatore | CGPA: 7.6 | 2025
Diploma in Electronics Communication Engineering | KLN Memorial Polytechnic College | 2021 | 75%
Class X | Devangar Higher Secondary School | 2018 | 75%

INTERNSHIP EXPERIENCE

MVN Solutions (Sep 2023 – Oct 2023)

Developed Android & iOS applications using Java and Android Studio. Performed functional testing and basic validation of mobile applications. Created and executed test cases and reported defects using standard testing practices. Assisted in identifying and debugging issues, and validating API responses. Executed smoke, regression, and system testing across multiple builds. Collaborated with developers to ensure application stability and performance.

WORK EXPERIENCE

Machine Learning Engineer – Lakshmi Machine Works (LMW) (May 2021 – Nov 2021)

Designed, developed, and optimized machine learning models for predictive analysis. Involved in data validation, performance evaluation and quality checks for machine learning models. Collaborated with the team to deploy ML solutions in the production environment.

ACADEMIC PROJECT

Real-Time Vehicle Accident and Rash Driving Monitoring System (Dec 2024 – May 2025)

Designed and developed a real-time IoT system for accident detection and driver behavior monitoring using Arduino, GPS, GSM, and sensors. Implemented alert notifications via SMS and mobile application to enable quick emergency response.

CERTIFICATIONS

- Software Testing Course – Completed and Certified
- Mobile Application Development
- Fundamentals of Generative AI
- Introduction to MongoDB

AWARDS & EXTRACURRICULAR

Silver Medal – Intra-college Volleyball | Silver Medal – School Carrom Competition | Bronze Medal – 5000m Freedom Run | NCC Cadet
