OBJECTIVE

Motivated and detail-oriented QA/QAT professional with strong knowledge in Manual Testing, Test Case Design, Defect Reporting, and Agile processes. Seeking an opportunity as QAT I / QA Associate to apply analytical skills, improve test coverage, and contribute to product quality through optimized test cases, bug reproduction, and collaboration with QA teams.

TECHNICAL SKILLS

Testing Skills

- Strong understanding of SDLC and STLC.
- Expertise in Smoke, Functional, Integration, System, Regression and Ad-hoc Testing.
- Good knowledge of Compatibility Testing and Performance Testing (basic).
- Ability to write, review, and optimize test cases & test scenarios.
- Experience in bug reproduction, defect identification, updating test cases, and supporting QA coverage improvement.
- Ability to interpret test results, analyse issues, and provide structured outputs.
- Knowledge of test planning, severity/priority, and test metrics.

Tools & Technical Exposure

- JIRA – Defect logging, tracking, workflow understanding.
- Test Case Management Tools – TestRail / Zephyr (basic exposure).
- Postman (Basic API testing).
- SQL (basic queries for validation purposes).
- Chrome DevTools for log checking & trace observation.
- Selenium (Beginner level – understanding of automation execution).
- Knowledge in analysing logs, traces, and attaching them in bug reports.

RELATED SKILLS

- Ability to write, maintain, and optimize test cases for functional features.
- Capable of executing automated test scripts and understanding automation results.
- Skilled in gathering and analysing logs/traces to enhance bug reports.
- Ability to interpret test results and communicate findings clearly to QS/QA associates.
- Understanding of test coverage improvements through scenario expansion.
- Experience in converting ad-hoc defects into structured test cases.
- Strong capability in reproducing errant product behaviour for developers.
- Accurate tracking and reporting of defects.
- Quick learner with strong analytical and problem-solving skills

PROJECTS

1. WEB APPLICATION MANUAL TESTING PROJECT

- Performed requirement analysis, prepared detailed test scenarios & test cases.
- Executed Functional, Regression, Smoke, and System Testing.
- Logged defects in JIRA with logs, screenshots, and reproduction steps.
- Improved test coverage by identifying missing scenarios and converting unexpected defects into new test cases.
- Prepared test summary reports and communicated defects to the QA team.

2. API TESTING – SAMPLE PROJECT (POSTMAN)

- Performed basic API requests (GET, POST).
- Validated status codes, response times, headers, and body content.
- Documented failed API behaviours with logs and attached results.

PROFESSIONAL STRENGTHS

- Strong analytical and logical thinking. Quick learner and self-motivated.
- Excellent team player with strong communication.
- Problem-solving & decision-making ability.
- Sincere, punctual, and adaptable in fast-paced environments

EDUCATION

B.E Computer Science Engineering – Jerusalem College of Engineering (2020–2024) CGPA: **8.1**

HSC – New Prince Matriculation Hr. Sec. School (2019–2020) Percentage: **66%**

SSLC – New Prince Matriculation Hr. Sec. School (2018–2019) Percentage: **81%**

PERSONAL DETAILS

- Date of Birth: 13/10/2001
- Gender: Male
- Nationality: Indian
- Marital Status: Single
- Languages: English, Tamil

DECLARATION

I hereby declare that all the information provided above is true to the best of my knowledge.
