EDUCATION

2021 - 2025

VELLORE INSTITUTE OF
TECNOLOGY

- Bachelor of Computer Science
- CGPA : 7.1 / 10.0

SKILLS

- Python C & C++
- Java
- Html, CSS & Javascript
- Bootstrap
- React js
- SQL
- Problem Solving
- Communication Skills
- Leadership & Teamwork
- Adaptability & Flexibility

LANGUAGES

- English: Fluent
- Tamil : Fluent

PROJECTS

Automated Vulnerability Scanner

Developed a Python-based tool to automatically scan and identify security vulnerabilities in web applications. This project services, combined with vulnerability databases to cross- check exposed weaknesses. The tool generates detailed reports on vulnerabilities and suggests mitigation strategies to enhance security.

Password Cracking Tool (Ethical Hacking)

- Built a Python tool for ethical hacking to demonstrate how weak
- passwords can be cracked using dictionary and brute-force attacks. Utilized the hashlib library for hashing algorithms and integrated with multi-threading for efficient processing. The project helped emphasize the importance of strong password policies and secure authentication mechanisms in organizations.

E-Commerce Website

- Developed a fully functional e-commerce platform using HTML,
- CSS, JavaScript, featuring user authentication, product listing, shopping cart, order management, and secure payment integration. Implemented responsive design and optimized performance for seamless user experience across devices.

Custom CRM System

- Designed and developed a tailored Customer Relationship Management system using PHP,React, MySQL enabling efficient
- lead tracking, customer data management, task assignment, and communication logs. Integrated role-based access control and real-time data updates to enhance team collaboration and sales workflow.
