## PROFESSIONAL PROFILE

Results-driven **Senior Graphic Designer & Video Editor** with extensive experience across **Industrial and Commercial sectors**. Expert in conceptualizing high-end visual content, from 3D architectural visualization to high-performance video marketing. Adept at leveraging **AI-integrated workflows** and industry-standard software (Adobe Suite, Figma, 3ds Max) to deliver sophisticated design solutions that align with corporate and industrial objectives.

## TECHNICAL SKILLS

- **Design & UI/UX:** Adobe Photoshop, Illustrator, **Figma** (Modern UI/UX Layouts), Canva.
- **Video & Motion:** Adobe **After Effects**, Premiere Pro, **CapCut** (Advanced Editing & Effects).
- **3D Modeling:** Autodesk 3ds Max, Blender (Industrial & Architectural Visualization).
- **AI & Innovation:** Midjourney, Adobe Firefly, Generative AI for Video & Image Automation.
- **Sector Expertise:** Industrial Branding, Commercial Advertising, Product Customization.

## PROFESSIONAL EXPERIENCE

**Senior Graphic Designer & Video Editor | Syscorp Technology** Feb 2025 – Present

- **Integrated Multi-Platform Design:** Lead the design and development of high-conversion **UI/UX components**, including web banners, interactive icons, and landing page layouts using **Figma** and **Illustrator**.
- **Next-Gen Motion Production:** Spearhead the creation of **Motion Graphic videos** and **Social Marketing Reels**, utilizing **After Effects** for complex animation and **CapCut/Premiere Pro** for rapid, trend-focused mobile content.

- **AI-Driven Workflow Optimization:** Revolutionized the creative department's efficiency by integrating **Generative AI (Adobe Firefly, Midjourney)** for rapid asset generation, background expansion, and automated video rotoscoping.
- **Industrial-Commercial Fusion:** Design specialized technical posters and digital assets for industrial clients, translating complex engineering concepts into digestible, visually compelling commercial marketing materials.
- **3D Visual Strategy:** Leverage **3ds Max** and **Blender** to create 3D product renders and environmental visualizations for web and social media integration.

#### Graphic Designer & Video Editor | Star Automation

March 2024 – Feb 2025

- Developed technical and promotional visual content for the automation industry.
- Produced industrial walkthroughs and product videos highlighting complex machinery and automated systems.
- Created multi-channel marketing collateral, including brochures, catalogs, and digital ads.

#### Junior Graphic Designer | Gadget Destiny

Jan 2023 – Dec 2023

- Designed customized mobile accessories and tech skins for a high-volume retail market.
- Produced high-quality product mockups and social media creatives.
- Collaborated on print-on-demand workflows and customer-facing design solutions.

---

### KEY PROJECTS & ACHIEVEMENTS

- **Industrial Visualization:** Designed detailed 3D indoor/outdoor models using **3ds Max** and **Blender**, translating architectural blueprints into realistic renders.
- **Film & Media:** Conceptualized the official logo and high-impact promotional posters for a feature film.
- **Commercial Branding:** Developed complete brand identity kits (visiting cards, menus, standees) for business agencies and F&B outlets.

---

### EDUCATION

**B.Sc. Visual Communication** 2022, *Chennai*.
