Professional Skills

- Proficient in MS Office: Excel - Pivot Table, VLOOKUP
- Word : Documentation
- PowerPoint: Creating Presentation
- Analytical Thinking
- Problem-Solving Abilities
- Team Collaboration

- **Programming Language:** Java(core)
- **Automation Tools:** Selenium WebDriver
- **Test Framework :**TestNG
- **BDD Framework:** Cucumber
- **Version Control:** Git, GitHub
- **Defect Tracking:** JIRA
- **IDE:** Eclipse, IntelliJ IDEA
- Agile Methodologies (Scrum)
- Test Documentation & Reporting

Areas of Interest

- Selenium Automation with Java
- Designing BDD test scenarios using Cucumber
- Agile team collaboration and test planning
- Test case optimization techniques
- Exploring emerging automation tools.

ACADEMIC PROJECT EXPERIENCE

Automation testing of E-commerce website

- Designed and executed automated test cases for core e-commerce workflows such as Login, Product Search, Add to Cart, and Checkout.
- Implemented Selenium automation framework using Page Object Model (POM) for better code reusability and maintenance.
- Developed BDD test scenarios using Cucumber and Gherkin to improve test readability and collaboration.
- Executed test suites using TestNG, utilizing features like test grouping, priority, and dependencies.
- Used Maven for build management and dependency handling.
- Generated HTML automation reports to analyze test execution results and failures.
- Performed manual testing including positive, negative, and boundary test cases.
- Logged and tracked defects using JIRA and followed up for resolution.
- Worked in a mock Agile environment, participating in daily stand-ups and sprint planning sessions.
