OBJECTIVE

QA professional with 2 years of IT experience, including 1.4 years of hands-on manual testing and 6 months of professional training at Infosys. Seeking an Automation Testing Engineer role where I can apply my knowledge of Selenium (Java), TestNG, and Page Object Model to deliver high-quality and reliable software solutions.

SKILLS

Automation (Basic): Selenium WebDriver (Java), TestNG, Maven, Page Object Model (POM), Data-Driven Framework

Manual Testing: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, UI Testing

Tools: JIRA, Postman (Basic), Excel

Programming: Java, SQL

Concepts: SDLC, STLC, Bug Life Cycle,

EXPERIENCE

Associate QA Tester – SVaaN Global Tech, Chennai

Sept 2024 - Dec 2025

- Performed manual testing of websites and web applications
- Validated navigation, forms, UI elements, and end-to-end user flows
- Executed Functional, Regression, Smoke, Sanity, and UI testing
- Conducted cross-browser and cross-device compatibility testing
- Created detailed test cases and test scenarios based on requirements
- Logged, tracked, and managed defects using JIRA and Excel
- Collaborated with developers to validate bug fixes and retest builds
- Participated in client walkthroughs, website migration testing, and quality checks
- Ensured smooth user experience across different platforms

System Engineer Trainee - Infosys, Mysore

Aug 2022 - Jan 2023

EDUCATION

2018 - 2022

Bachelor of Engineering (B.E) - Electronics and Communication Engineering,
S.A Engineering College, Chennai.

PROJECT

Java Web Automation Framework

- Developed a web automation framework in Java using Selenium and TestNG for efficient test management.
 - Implemented Page Object Model (POM) and Data-Driven approach for maintainable and scalable tests.
 - Integrated Extent Reports for detailed reporting, Listeners for tracking, and Log4j for logging.
 - Repository: [GitHub Repository](#)
-
