

DIVYASH D

Software Quality Analyst | Manual & Automation QA | OTT, Web & Mobile Testing

☎ 6374641987 | ✉ divyashd3@gmail.com

PROFESSIONAL SUMMARY

Software Quality Analyst with 5 years of experience in Manual and Automation Testing across Web, Mobile, and OTT platforms. Strong expertise in Functional, Regression, Integration, System, and UAT testing. Hands-on experience with Selenium WebDriver (Java, TestNG), API testing using Postman, and SQL database validation. Experienced in SDLC, STLC, Agile Scrum, and Defect Life Cycle. Proven ability to improve test coverage, reduce defects, and deliver high-quality applications across OTT, Healthcare, ERP, E-commerce and Digital Asset / Unit-Based Marketplace.

CORE SKILLS

Manual Testing:

Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Cross-Browser Testing, System Testing, UAT, Exploratory Testing, Black Box Testing, Monkey Testing and Mobile Testing (Android / iOS – Manual)

Automation Testing:

Selenium WebDriver, Java, TestNG Annotations, Maven Build Lifecycle, Jenkins CI/CD, Git & GitHub

Hybrid Framework, Page Object Model (POM)

API & Backend Testing:

API Testing (Postman), REST API Testing, JSON Validation, SQL Queries, Database Validation

Test Management:

Test Scenario, Test Case Design, Test Scenario Creation, RTM, Defect Life Cycle, Defect Tracking, Root Cause Analysis, Test Summary Reporting

Methodologies & Tools :

Agile Scrum, Waterfall, SDLC, STLC, JMeter, BrowserStack, Azure, SQL, Postman

PROFESSIONAL EXPERIENCE

Automation QA Engineer

Cove Solutions – Coimbatore - Aug 2025 – Oct 2025

- Worked on a US Tax domain project, validating digital tax-form workflows for private companies.
- Automated form validations, field-level checks, and submission workflows using Selenium WebDriver and TestNG.
- Ensured accurate filing and validation of multiple IRS tax forms, reducing manual validation effort.

Software Quality Analyst

Majestic People Infotech – Coimbatore - Sep 2021 – Jul 2025

- Analyzed business and functional requirements and contributed to preparing detailed test plans, test strategies, and Requirement Traceability Matrix (RTM).
- Created test scenarios and designed 500+ comprehensive test cases, executing functional, regression, integration, and end-to-end testing across multiple modules.
- Prepared clear and concise test summary reports and defect reports for stakeholder and management review.
- Identified, logged, tracked, and retested 800+ defects using defect tracking tools, ensuring timely resolution and minimal production leakage.
- Collaborated closely with developers, product owners, and cross-functional teams for defect triage, retesting, and status updates.
- Performed Root Cause Analysis (RCA) for critical issues and supported faster defect resolution.
- Prepared, optimized, and executed regression test suites, ensuring complete coverage before every release cycle.
- Developed and executed automation scripts using Selenium WebDriver (Java + TestNG) to automate repetitive regression scenarios, reducing manual testing effort by 30%.
- Conducted SQL-based backend validations to ensure data accuracy, consistency, and business rule validation across systems.
- Actively participated in Agile/Scrum ceremonies including sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Worked across multiple domains including OTT, E-commerce, Healthcare, ERP, and Digital Asset / Unit-Based Marketplace, ensuring high-quality product delivery.

Trainee – Software Testing

Bow and Baan Technology Solution – Chennai - Dec 2019 – Mar 2021

- Learned and practiced manual testing concepts including test case design and defect reporting.
- Tested a Medical Counseling and College Admission Management System.
- Validated modules for student registration, document verification, merit list generation, seat allocation, and admission confirmation.

PROJECT EXPERIENCE

The Florida Channel – OTT Platform

Tools: Manual Testing, OTT Testing, Samsung Tizen OS(Smart TVs)

- Tested OTT application on Samsung Smart TVs (Tizen OS).
- Validated video playback, buffering, content navigation and watch history.
- Performed basic performance and compatibility testing across Smart TV devices.

JMA – ERP (Timesheet & Work Management)

Tools: Manual Testing, Web and Mobile Application Testing (Android & iOS)

- Tested ERP web and mobile applications for work assignment, timesheet submission, approvals, and history tracking across different user roles.
- Executed end-to-end testing across multiple modules.

ICUBE – E-commerce Platform

Tools: Manual Testing, Web and Mobile Application Testing (Android & iOS)

- Tested product listing, cart, checkout, order placement, receipts, quantity validation, and reorder workflows.
- Performed regression testing for major releases on web and mobile platforms.

Inmate Management System – Government (Automation)

Tools: Selenium WebDriver, Java, TestNG, Maven, GitHub, Jenkins

- Automated regression and functional test scenarios using Selenium WebDriver, Java, TestNG, and Maven, integrated with Jenkins.
- Automated Admin module including inmate profile management, approvals, activity tracking, and regression scenarios.

NestMarket – Digital Asset / Unit-Based Marketplace

Tools: Manual Testing, Web and Mobile Application Testing (Android & iOS)

- Tested a digital asset marketplace where images are split into multiple units for buying, modifying, and reselling across repeated ownership cycles.
- Validated buyer–seller workflows, ownership transfer, and transaction history on web and mobile platforms.

Cirque – Healthcare Application

Tools: Manual Testing, Web and Mobile Application Testing (Android & iOS)

- Tested healthcare web and mobile apps for patient records, doctor appointments, and online payments.
- Ensured end-to-end workflow validation and data accuracy.

EDUCATION

Bachelor of Computer Applications (BCA)

Madras University, Chennai

2019 – 2021

Diploma in Computer Engineering

Ramakrishna Mission Polytechnic College, Chennai

2015 – 2018
