SUMMARY

Detail-oriented IT professional with 2 years of experience as a SharePoint Developer, transitioning into Software Testing with a strong foundation in Manual Testing and Automation Testing (Java - Selenium). Passionate about quality assurance with a growing focus on Automation Testing, aiming to deliver reliable and defect-free applications.

WORK EXPERIENCE

Programmer Analyst, Cognizant: 7-Eleven Retail Project **Jul 2023 - Jun 2024**

- Built and automated SharePoint and Power Apps solutions, performing basic functional checks to ensure workflows met retail business requirements.
- Designed SharePoint lists, libraries, and permission structures, carrying out data and access validation to support secure and accurate information handling.
- Integrated Power Automate with external services and supported enhancements, monitoring workflow outcomes and addressing functional issues based on user feedback.

Programmer Analyst Traniee, Cognizant: Zurich Migration Project **Jun 2022 - Jul 2023**

- Supported SharePoint migration and site restructuring activities (site collections, permissions, workflows), performing basic data validation and functional checks to ensure accuracy, performance, and minimal downtime.
- Developed Power Automate workflows and collaborated with stakeholders to validate workflow behaviour and user experience.

Intern - Entry Level Trainee, Cognizant **Jan 2022 - Jun 2022**

- Coordinated with SharePoint lists and libraries, ensuring compliance with project standards, and performed basic validation checks on SharePoint pages and UI components, with initial exposure to Power Apps and Power Automate workflows.

EDUCATION

RMK College of Engineering and Technology
Bachelor Of Engineering (B.E)

Jul 2018 - May 2022

Specialisation in Electronics And Communication Engineering

- CGPA - 8.52
