- Performed smoke, system, and ad-hoc testing across 5+ application modules
- Improved test coverage by 20% through detailed test case design
- Mitigated regression issues by 15% through structured retesting

PROJECT

OnlineShopping Web Application - Manual Testing Description: 2025

Performed end-to-end manual testing of an online shopping web application to validate functionality, usability, and data integrity acrosscore modules.

EXPERTISE

Testing Methodologies: SDLC, STLC, Smoke Testing, System Testing, Ad-hoc Testing

Test Management: Test Case Design, Test Plan Preparation, Test Execution

Defect Management: Defect Life Cycle, Defect Tracking, Bug Reporting

Database: SQL

Tools & Practices: Manual Testing, Selenium Automation Testing (Java)

SKILL

Soft Skills

- Team Work
- Adaptability
- Decision Making

Technical Skills

- Manual Testing
- Automation Testing
- SQL
- Java
- Playwright with Typescript

CERTIFICATIONS

- **Manual Testing Certification - Infosys Springboard** Covered SDLC, STLC, Test Case Design, Defect Life Cycle, and Bug Tracking
- **Automation Playwright using with Typescript Testing Certification - Fita**
- **(Selenium WebDriver with Java)** Hands-on training in Selenium WebDriver automation using Java for web application testing.

PERSONAL DETAILS

DateofBirth : 12Oct 2003

Languages : Tamil, English
