📍 Chennai, India

PROFESSIONAL SUMMARY

QA Engineer with 2+ years of experience in Manual, API, and Automation-supported testing of web and mobile applications in Agile environments. Strong expertise in functional validation, REST API testing, regression cycles, and defect lifecycle management. Experienced in security-aware validation and supporting automation for smoke and repetitive regression scenarios. Committed to delivering high-quality, stable, and production-ready releases.

TECHNICAL SKILLS

- Testing Types: Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, End-to-End Testing, UAT Support
- API Testing: REST API Validation, Postman, GET/POST/PUT/DELETE, Status Codes, Payload Validation
- Automation Support: UI Automation (Smoke & Regression Support), Test Script Execution
- Mobile Testing: Android Functional Testing, UI Testing, Compatibility Testing
- Defect Management: Defect Lifecycle, Root Cause Support, Severity & Priority Analysis
- Tools & Technologies:
 - Postman, Playwright, Azure DevOps, MySQL (Basic Queries), VS Code
- Methodologies: Agile Scrum, Sprint Planning, Release Validation

WORK EXPERIENCE

Funatek Systems private Limited

Jr. Software Tester

Oct 2023 – Present

- Executed end-to-end manual testing for web and mobile applications across multiple releases.
- Designed and maintained detailed test cases covering functional, regression, and edge scenarios.
- Performed REST API validation using Postman ensuring accurate backend data processing.
- Validated booking, scheduling, checkout, and payment workflows ensuring business logic integrity.
- Conducted input validation and security-aware testing including XSS checks and URL manipulation.
- Supported smoke and repetitive regression testing using automation scripts.
- Logged, tracked, and verified defects using Azure DevOps/Jira following complete defect lifecycle.
- Collaborated with developers and product stakeholders in Agile sprint cycles.
- Reduced regression escape issues by proactively validating critical workflows before release.

PROJECT

Fusion Boat Management System (Web & Mobile)

- Tested booking, scheduling, and payment workflows.
- Validated backend APIs related to booking and transactions.
- Performed end-to-end testing of user and admin modules.
- Logged and tracked defects through complete lifecycle.

Fusion HR Web Lite (Web)

- Tested employee onboarding, attendance, leave, and payroll modules.
- Conducted functional, regression, and API validation testing.
- Ensured accurate data validation across UI and backend systems.

EDUCATION

Prince Dr. K. Vasudevan College of Engineering & Technology

Bachelor of Engineering – Electrical & Electronics Engineering - 7.01 GPA

April, 2019
