

ARUN KUMAR K

+91 9962887997 • arunkumarcs040@gmail.com • Chennai,India,600100

PROFILE

To secure a challenging position in a reputable organization where I can utilize my skills, gain valuable experience, and contribute to the success of the company while continuously learning and growing in a dynamic environment.

EDUCATION

B Tech Computer Science and Engineering	2021 - 2025
Bharath Institute Of Higher Education And Research,selaiyur.	
Secured 8.3 CGPA	
High School	2020 - 2021
Shikshaa Mat Hr Sec School,Hasthinapuram.	
Secured 475 (79%)	
SSLC	2018 - 2019
Shanthinikethan Mat Hr Sec School,Sembakkam.	
Secured 365 (73%)	

SKILLS

Technical Skills

- Programming Languages: Java, Python,JavaScript,SQL
- Web Technologies: HTML, CSS,Tailwindcss
- Frameworks: React JS
- Tools: MySQL, Git and GitHub and Postman

Soft Skills

- Communication
- Problem Solving
- Time Management
- Leadership

EXPERIENCE

Intern, Hyundai Motors India Ltd. Irungattukottai,Chennai	June 11,2024 - June 25,2024
• Gained Knowledge about SAP Tools and Technology • Assisted in the IT Management Department	
Intern, ZealZoft Pvt Ltd,Thoraipakkam, Chennai	June 09,2025 - December 09,2025
• Contributing to the development of a full-stack E-commerce web application using the PERN stack (PostgreSQL, Express.js, React, Node.js). • Implementing core features such as product management, shopping cart, order processing, and secure authentication with JWT. • Developing an Admin Panel to manage products, categories, coupons, roles, and user permissions. • Building RESTful APIs for seamless client-server communication and integrating them into a responsive frontend. • Gaining practical experience in scalable application development, database handling, and role-based access control.	

PROJECTS

A WEB-BASED PLATFORM FOR CONNECTING FOOD WITH HOME COOKS USING SPRING AND MYSQL

A full-stack web-based platform connecting home cooks with customers seeking fresh, personalized, and nutritious meals. It features user registration, login authentication, menu browsing, real-time order tracking, customizable meals and delivery tracking. The system empowers home cooks to manage menus and orders while ensuring a seamless experience for users

Built with : HTML,CSS,JavaScript,Java (SpringBoot) and MySQL.

Github: <https://github.com/arunkumarbtech/Cook-s-Haven>

HYBRID MALWARE DETECTION USING MACHINE LEARNING AND DEEP LEARNING

Developed a hybrid malware detection system that leverages Machine Learning (Random Forest, SVM) for static analysis and Deep Learning (Convolutional Neural Networks) for dynamic analysis of malware behavior. Implemented Principal Component Analysis (PCA) to reduce data dimensionality and enhance model performance. The system significantly improves detection accuracy, minimizes false positives, and is capable of identifying zero-day malware. Evaluated the model using benchmark datasets to validate its effectiveness and scalability.

Built with : Python, Scikit-learn,NumPy, Pandas, Matplotlib.

Github: <https://github.com/arunkumarbtech/Hybrid-Malware-Detection>

E-COMMERCE WEB APPLICATION

Developed a full-stack e-commerce platform using the PERN stack, providing product browsing, cart management, order placement, and secure authentication with JWT. Designed and implemented an Admin Panel for managing products, categories, coupons, roles, and user permissions with fine-grained access control. Built RESTful APIs in Express.js with PostgreSQL as the database, ensuring scalable and efficient data handling. Developed a responsive, dynamic frontend with React (Vite) and Tailwind CSS to deliver a seamless user experience.

Built with: PostgreSQL, Express.js, React (Vite), Node.js, Tailwind CSS, JWT Authentication, REST API.

ADDITIONAL CERTIFICATIONS

Diplomo in Computer Application (Part Time)

NEON Computer Education,Chennai.

NPTEL Online Certification – Introduction to Internet of Things

Jul 2024 - Oct 2024

Completed through SWAYAM, October 2024

Score: 76% – Elite + Silver
