OBJECTIVE

Motivated and detail-oriented Full-Stack Python Developer with a strong foundation in Python, Django, HTML, CSS, and JavaScript. Seeking an entry-level opportunity to contribute to real-world applications, continuously improve technical skills, and grow as a reliable developer by delivering clean, efficient, and maintainable solutions in a collaborative environment.

TECHNICAL SKILLS

- **Programming Languages:** Python (OOP, Data Structures, Exception Handling), JavaScript
- **Backend Development:** Django, Django REST Framework, MVT Architecture, RESTful APIs, Authentication
- **Frontend Development:** HTML5, CSS3, Bootstrap, Responsive Web Design, DOM Manipulation
- **Databases:** MySQL, Database Design, CRUD Operations
- **Version Control:** Git, GitHub, Branching, Pull and Push Requests
- **Web Concepts:** HTTP/HTTPS, Client-Server Architecture, JSON, APIs
- **Testing & Debugging:** Debugging, Basic Unit Testing, Error Handling
- **Tools & Platforms:** VS Code, Postman, GitHub Pages

PROJECTS

- **Accident Report and Analysis System** – Django-based application for reporting road accidents, managing records, and performing basic data analysis using MySQL.
- **Smart Music Guide Using Facial Expression and Pulse Rate** – Intelligent music recommendation system developed in Python using facial emotion recognition and pulse rate analysis.
- **Traveller Website** – Responsive travel website designed using HTML, CSS, Bootstrap, and JavaScript with a clean and user-friendly interface.
- **Personal Portfolio Website** – Minimal personal portfolio website showcasing projects and skills, deployed using GitHub Pages.

EDUCATION

B.E – ECE , PSNA College of Engineering and Technology CGPA: 7.24	2021–2025
HSC , Ananda Vidyalaya Matric Hr. Sec. School Percentage: 87.2%	2020–2021
SSLC , Ananda Vidyalaya Matric Hr. Sec. School Percentage: 88%	2018–2019

CERTIFICATIONS & TRAINING

Full Stack Python Development – Besant Technologies
Java Programming – Phoenix Softech
TCS iON Career Edge – Young Professional
