

PRAVEENA P

FULL STACK DEVELOPER

Chennai, Tamilnadu | +91 9344719027 | Praveenapandi05@gmail.com | [Linkedin](#) | [Github](#)

OBJECTIVE

Full-Stack Developer (Front-End Focused) with 1 year and 10 months of experience in building responsive and scalable web applications. Proficient in HTML, CSS, Bootstrap, JavaScript, PHP, Laravel, and SQL (MySQL), with experience in database design, queries, API integration, authentication, and role-based access control. Strong focus on mobile-first UI, cross-browser compatibility, and clean, maintainable code.

SKILLS & TOOLS

HTML5	Bootstrap	React.js	Laravel	MongoDB	C
CSS3	JavaScript	PHP	MySQL	GitHub	C++

PROJECTS

Yahoo Clone with Live API Integration

Jan 2023 – March 2023

- Built a Yahoo Clone with HTML, CSS, and JavaScript, integrating real-time APIs for live news and weather updates with a responsive UI and interactive search.
- Implemented interactive search functionality for enhanced user experience.
- Integrated real-time News and Weather APIs to display dynamic content.

Online Food Ordering System with Live Cart & WhatsApp API

Apr 2023 – Jun 2024

- Developed an E-Commerce Food Ordering Platform using PHP, MySQL, and Bootstrap, featuring live cart updates, dynamic product pages, and WhatsApp API for order confirmation.
- Implemented live cart functionality and dynamic product/order pages for seamless user interaction.
- Integrated WhatsApp API for real-time order confirmations and enabled full CRUD operations for users and products.

PROFESSIONAL EXPERIENCE

Jelly Softwares, Sivakasi

Feb 2024 – Dec 2024

- Worked on building interactive UIs and backend features for internal and client-facing web apps.
- Developed dynamic and responsive user interfaces using HTML5, CSS3, and Bootstrap, ensuring cross-browser compatibility and pixel-perfect layouts.
- Implemented preventive maintenance strategies, resulting in a 20% decrease in equipment downtime.

VA Meditek pvt ltd, Chennai

March 2025– Jan 2026

- Developed a full-stack Lab Management System using HTML, CSS, Bootstrap, JavaScript, PHP (Laravel) with MySQL and MongoDB for database management.
- Designed responsive and user-friendly interfaces and implemented role-based access control for Admin, Technician, and Receptionist workflows.
- Built dynamic CRUD operations using MongoDB and MySQL to manage patient registration, billing, and test scheduling efficiently.
- Utilized GitHub for version control and collaborative development, ensuring clean and maintainable code.

EDUCATION

Bachelor of Computer Science

Sep 2020 - May 2023

V.V. Vanniaperumal College for Women | **CGPA: 7.9 / 10**
