📍 Chennai

ABOUT ME

Detail-oriented Software Test Engineer with hands-on experience in Manual Testing, API Testing, and Selenium WebDriver Automation. Skilled in test case design, defect tracking, and test execution with strong knowledge of SDLC, STLC, and Agile methodologies. Seeking an entry-level QA role to contribute to high-quality software delivery.

SKILLS

Manual Testing: Functional, Regression, Smoke, Sanity, UAT

Automation: Selenium WebDriver, Java, XPath, Locators

API Testing: Postman

Defect Tracking: JIRA

Database: SQL (Joins, Subqueries, Data Validation)

PROJECT

AI Powered Chatbot for Mental Health Analysis

- Building a Python-based NLP chatbot for mental health analysis.
- Designed question set and validated sentiment-based prediction logic.
- Tested multiple user input patterns to improve model accuracy.
- Assisted in refining keyword matching and scoring rules.
- Tech: Python, NLP, Text Processing, Rule-Based Classification.

Web Application Testing – Manual QA

- Designed and executed test cases based on requirements
- Performed functional, regression, and cross-browser testing
- Logged and tracked defects using JIRA
- Verified fixes and prepared test reports.

EXPERIENCE

Web Development Intern – AK Info Park Pvt Ltd (Jun–Jul 2023)

- Assisted in developing and enhancing front-end UI components
- Fixed bugs and improved functionality based on client and team feedback
- Tested web pages for usability and responsiveness
- Collaborated with developers in a real-time project environment.
