Profile Summary:

Detail-oriented Full-Stack Developer with a Master's in Computer Science. Specialized in the MERN stack (MongoDB, Express.js, React, Node.js) and Python/Django. Proven track record of architecting responsive, scalable, and secure web applications with integrated RESTful APIs and optimized database performance

Education

Periyar Maniammai Institute of Science and Technology, Thanjavur Master of Computer Science	June 2023 - May 2025 8.12 / 10 CGPA
AVVM Sri Pushpam College, Poondi, Thanjavur Bachelor of Computer Science	June 2020 - May 2023 8.50 / 10 CGPA

Projects

Gaming Accessories | E-commerce web application

- **Action:** Architected a MERN stack platform with a React.js front-end and Node.js/Express.js RESTful APIs.
Effect: Optimized MongoDB queries and UI components, reducing data retrieval latency by 15% and improving user engagement.
- **Integrated** secure CRUD operations and state management, ensuring a seamless checkout experience and efficient product inventory handling.

LittleLemon Restaurant Booking Application

- **Action:** Developed a Python/Django backend featuring role-based access control and automated table booking APIs.
- **Effect:** Streamlined restaurant operations and secured customer data, resulting in 30% faster integration for front-end services. Implemented Role-Based Access Control (RBAC) and secure authentication, streamlining administrative tasks and protecting customer data

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Django

Database: MongoDB, MySQL

API: RESTful APIs

Tools: Git, GitHub, Postman, Insomnia, MS Excel, MS Word

Programming Languages: Python

DevOps / CI-CD: GitHub Actions (CI/CD), Vercel / Netlify Deployment

Certifications Courses

MERN Full Stack Development

- MERN Full Stack Development covering MongoDB, Express.js, React.js, Node.js, REST APIs, CRUD operations, and full-stack web application development with hands-on projects.

Jul - Dec 2025

SLA Education
Chennai

Meta Backend Developer Course

- Backend development using Python, Django, REST APIs, and MySQL, Version control with Git, database management, testing, security, and deployment, Cloud Hosting, APIs, JSON, XML and more

Jan - April 2025

Coursera
