Summary

MCA graduate with strong understanding of manual testing concepts (SDLC, STLC, test cases, defect life cycle, Agile). Hands-on experience working on real production applications during internships, with a clear understanding of application workflows and system behavior. Seeking a Manual Tester (Fresher) role in Bangalore to apply my testing knowledge and contribute to building reliable and high-quality software.

Technical Skills

Manual Testing

Test Case Design • Test Execution • SDLC • STLC • Defect Life Cycle • Bug Reporting • Agile & Scrum

Tools

JIRA (Basics) • Postman • Git/GitHub • Linux (PuTTY/SSH)

Frontend & Styling

HTML5 • CSS3 • Tailwind CSS • Bootstrap • Responsive Design

Database & API

SQL • MySQL • MongoDB • RESTful APIs • JWT Authentication

Languages & Frameworks

JavaScript • TypeScript • React • Angular • Node.js • Express.js

Experience

09/2025 – 02/2026
Chennai

Full Stack Developer Intern, Neolysi Technologies

Worked on a production exam platform used by students and faculty, delivering multiple modules across Angular, backend APIs, and database workflows. Built secure assessment features including compiler integration (Judge0) and evaluation modules. Improved UI/UX with dashboards and filters, and contributed to database updates and Linux-based deployment.

01/2025 – 03/2025
Chennai

Full Stack Developer Intern (Python), Vcodez

Worked on a restaurant supply chain system, contributing to backend APIs, database structure, and system workflows. Gained exposure to real project structure, debugging, and translating business requirements into working features.

Projects

WorkflowHub, MERN • JWT • Google OAuth

Role-based employee management system enabling admins to manage employee records and salaries, while employees securely access their profiles. Implemented authentication, authorization, and access control patterns commonly used in production applications.

CodeMentor AI, React • Node.js • Gemini API

AI-powered code review tool that detects common syntax and logic issues and provides actionable feedback. Integrated Google Gemini API to deliver real-time suggestions for improving code quality and debugging efficiency.

Portfolio Builder Suite, React • JavaScript

Developed two portfolio implementations: one using React for component-based architecture, and another using vanilla JavaScript to demonstrate DOM manipulation fundamentals. Both versions deployed and responsive across devices.

Education

2023 – 2025
Chennai

Master of Computer Applications (MCA), Measi Institute Of Information Technology

CGPA : 9.03/10

2020 – 2023
Vaniyambadi

Bachelor of Computer Applications (BCA), Islamiah College

CGPA : 8.55/10
