Professional Summary

Entry-level QA Engineer with hands-on knowledge of Manual Testing, Test Case Design, Regression Testing, Integration Testing, Defect Tracking, and SQL validation. Strong understanding of SDLC, STLC, and Agile practices with focus on software quality assurance and defect prevention.

Technical skills

Testing Skills: Manual Testing, Test Case Design, Test Scenario Preparation, Regression Testing, Functional Testing, System Testing, Integration Testing, User Acceptance Testing, Smoke Testing, Defect Tracking, Defect Life Cycle, SDLC, STLC, Agile Methodology.

Automation Skills: Selenium WebDriver, Python with Selenium, Locators (XPath, CSS Selector, ID, Name), Handling Web Elements (Dropdowns, Alerts, Frames, Action Chains)

Programming & Web Technologies: Python (Basics), HTML, CSS

Database & Tools: SQL (Basic Queries, Joins, CRUD Operations) and MS Excel, MS Word, MS PowerPoint

Education

Velammal Engineering College

BE in Electronics and Communication Engineering (2020 – 2024)

CGPA: 7.98

Training

Software Testing Trainee – QSpiders, Chennai

Completed structured training in Manual Testing and Automation fundamentals. Designed and executed test cases, performed regression testing, reported defects, and conducted SQL-based backend validation. Gained exposure to Agile methodology and basic Selenium automation.

Projects

IoT-Powered Sanitizer Dispenser & Door Control - <https://github.com/ARCHANATECH-D/AutoSanitTemp>

Implemented automatic hand detection, real-time temperature monitoring, and motor-controlled door access. Used NodeMCU/ESP8266, temperature sensor module, relay module, and embedded C for system control. Integrated hardware components with IoT-based monitoring functionality.

IoT-Based Robotic Surveillance System - <https://github.com/ARCHANATECH-D/AutoWarrior>

Designed and tested a Wi-Fi-enabled robotic vehicle using ESP32-CAM and NodeMCU for remote surveillance. Validated navigation control, real-time video streaming, and command execution. Enhanced system stability through structured testing and troubleshooting.

Achievements

Presented paper at International Conference on Contemporary Engineering & Technology (2024)

Participated in INVENTRONIX 2K-22 Mini Project Contest

Volunteer – Youth Red Cross
