

❖ Professional Summary:

- Having **1 Year** of experience in **Software Testing** with exposure to both manual and automation testing.
- Good knowledge of **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)** in Agile environment.
- Experience in designing and executing test cases, and performing Functional, System, Regression, Smoke, and UAT testing.
- Hands-on experience in defect tracking and management using **JIRA**.
- Basic knowledge of automation testing using **Selenium WebDriver**.
- Familiar with **API** testing using Postman and backend validation using **SQL**.
- Quick learner with the ability to adapt to new tools and technologies.

❖ Professional Experience: Software Tester

Minuscule Technologies

Jan 2024 to Sep 2024 (8 Months)

❖ Technical Skills Map:

Testing	Function Testing , System testing , Regression Testing.
Languages	Core Java
Defect Tracking Tool	JIRA
API	Postman
Database	MYSQL

❖ Professional Projects:

Project #1 Domain : Logistics - Prologis Forecast Management System

Worked on the Forecast Management System for Prologis, a logistics real estate platform, designed to manage and analyze warehouse demand forecasting, occupancy trends, and revenue projections. The application enabled business users to create, modify, and track forecasts for property utilization, leasing pipelines, and regional performance, supporting strategic decision-making.

Roles & Responsibility:

- Participating in agile ceremonies including daily **Stand-ups, Sprint Reviews, Show and Tell Meetings**.
- Analyzed requirements and user stories to understand application functionality. Created and maintained **detailed test cases, test scenarios, and test data** ensuring maximum test coverage.
- Performed **manual testing** including functional, integration, and regression testing to ensure application quality.
- Validated **forecast calculations, business rules, and data integrity** between UI, APIs, and database systems.
- Identified, logged, and tracked defects using JIRA and worked closely with developers to ensure **quick resolution and root cause analysis**.
- Conducted **retesting and regression testing** to verify bug fixes and ensure application stability.
- Developed and executed **automation test scripts** using Selenium WebDriver with TestNG/JUnit framework.
- Implemented **Page Object Model (POM)** to enhance script reusability and maintainability.
- Performed basic **API testing** using Postman to validate responses and status codes.
- Used **SQL queries** for simple data validation and backend verification.
- Participated in **Agile/Scrum meetings** such as daily stand-ups and sprint discussions.
- Collaborated with team members (developers and QA team) to clarify issues and improve test coverage.
- Supported **UAT testing** and ensured reported issues were addressed before release.

Project #2 Domain : Airlines - Malaysian Airlines

Worked on a customer support chat module for Malaysia Airlines, enabling real-time communication between users and support agents. Experience in testing chat functionalities such as message flow, session management, notifications, and chatbot interactions.

Roles & Responsibility:

- Analyzed user stories and requirements related to **chat functionality**, including message flow, agent assignment, and session handling.

- Designed and executed **test cases and test scenarios** for chat features such as:
 - ✓ Real-time messaging, Chat session initiation and termination, Auto-response and chatbot interactions, File attachments and notifications.
- Performed **manual testing** including functional, system, and regression testing to ensure chat module stability.
- Verified **UI behavior and message synchronization** across different browsers and devices.
- Logged and tracked defects in **JIRA** with proper documentation and worked with developers for resolution.
- Conducted retesting and regression testing after bug fixes.
- Assisted in automation testing by creating and executing Selenium test scripts for critical chat workflows.
- Participated in Agile ceremonies **including Daily Stand-ups, Sprint Reviews, and Show and Tell meetings**.
- Supported **UAT** testing and ensured issues were resolved before production release.

❖ **Self-Learning Projects : GITHUB** - https://github.com/wwjohncenawwe/Tricentics_WebShop_E2E.

Tools Used -

• Java	• Git / Github
• Selenium WebDriver	• Spring Boot
• Maven, Pom	• Api
• Cucumber, Junit, TestNG	• Sqlite, Mysql

Project #1 Tricentics Ecommerce WebShop:

- Performed **end-to-end (E2E)** testing covering modules:
 - ✓ Home Page, Registration, Login, Mobile Phones (Add to Cart), Checkout, Order Success.
- Designed and executed manual test cases for all modules.
- Developed automation scripts using **Selenium WebDriver** with Java, following Page Object Model for reusable code.
- Implemented **BDD** test scenarios using Cucumber and executed tests with **JUnit**.
- Conducted data-driven testing for multiple input scenarios and validated checkout processes.
- Generated detailed test reports using Extent Reports and implemented **Log4j** for logging and debugging.
- Managed version control and collaborative work using **Git and GitHub**.
- Ensured coverage of both module-level testing and full end-to-end workflows.

Project #1 Student Management System:

- Implemented full **CRUD** operations for a full-stack web application to manage student records
- Developed Restful **APIs** using Spring Boot for student data management.
- Designed and connected **SQLite** database using **JPA**.
- Tested **APIs** using postman.
- Followed layered architecture
 - ✓ (Controller -> Service -> Repository).

❖ **Certifications & Recognitions:**

- Tricentics Tosca Automation Course Level 1 – 4, Tricentics Neoload Load Testing.
- Course completion in Automation Testing – Selenium with Java, Hybrid framework, Cucumber, TestNG, POM.
- SKILLS** – Maven, JUnit, Jira, Git, Github, SQL, Spring Boot, Jenkins, Agile, Scrum, Postman API.

❖ **Strength:**

- Ability to work individually as well as in group environment.
- Good Conceptual, Analytical and Logical skills.
- Quick learner, multi-Tasker, detail oriented and strong inter personal skills.
- Determined, passionate and hardworking individual with unyielding motivation.

❖ **Education:**

BCA:	Distance Learning Madras University, Chennai.	2025 to 2027
Diploma EEE:	Murugappa Polytechnic College, Chennai.	2012 to 2015
SSLC:	Dawn Matriculation Higher Secondary School, Chennai.	2011 to 2012

❖ **Declaration**

I hereby declare that the information furnished above is true to the best of my knowledge.
