

MAHADUM AKBAR BASIL

Flutter Developer · 3.5+ Years Experience

7418707849 • basil03official@gmail.com • <https://www.linkedin.com/in/akbarbasil/> • <https://github.com/akbarbasil/>

Summary

Experienced Flutter Developer with 3.5+ years of experience building and shipping production mobile applications across retail, real estate, SaaS, and enterprise domains. Proven track record of leading end-to-end projects from development to deployment and working on international market applications, including Canada.

Skills

Mobile Development :

Flutter • Dart • Android • iOS • Java • Kotlin • Swift • GetX • Provider • CI/CD • Fastlane • GitHub Actions • Git • MVC • MVVM • REST APIs • Push Notifications • Deep Linking • Stripe • Razorpay • Google Maps API • In-App Purchases • Localization • Third-Party SDK Integration • Debugging & Performance Optimization • App Publishing

Cloud & Automation :

Firebase • Firestore • Firebase Authentication • Firebase Remote Config • Firebase Cloud Messaging • Firebase Crashlytics • Supabase • n8n Automation • AI Agents • OAuth • Social Authentication Integration

Tools & Platforms :

VS Code • Terminal • Cursor • Android Studio • Xcode • Transporter • Postman • GitHub Desktop • Google Play Console • App Store Connect

Experience

Sathuram Software Services (OPC) Pvt Ltd

Flutter Developer (March 2025 - Present)

Worked on developing scalable mobile applications for real-world business domains, handling end-to-end development, API integration, state management, and production deployment for international clients.

PROJECTS:

Name : Planexa – Event & Community Booking Platform

Skills : Flutter, REST APIs, Provider, Firebase, Stripe, WebSockets, QR Scanner, Deep Linking, Social Login, Location Services

Project Description :

- Developed **Planexa**, a cross-platform event and community booking application for the Canadian market with successful deployment on both **App Store** and **Google Play Store**.
- Designed and implemented event discovery, booking, ticket purchasing, and QR-based entry workflows to deliver a seamless user experience.
- Integrated **Stripe** for secure payment processing and utilized **Firebase services** for authentication, push notifications, and analytics.
- Developed a **drag-and-drop player field arrangement system** for sports events, enabling users to dynamically organize and manage player positions within event activities.

Name : HouseLink360 – Real Estate Service Platform

Skills : Flutter, REST APIs, Firebase, GetX, Razorpay, Location Services, Local Storage

Project Description :

- Developed **HouseLink360**, a feature-rich real estate application connecting property owners, builders, and consultants with buyers and renters.
- Implemented **role-based property workflows** with dynamic forms and user-specific dashboards to streamline property listing and management.
- Built and managed REST API integrations with GetX for state management, dependency injection, and responsive UI updates.
- Integrated **Razorpay** for secure in-app payments and subscription-based property listing services

Wizhcomm Consultants and Technologies Pvt Ltd

Flutter Developer (April 2022 - February 2025)

Contributed to and maintained enterprise-level mobile applications with a focus on real-time data handling and location-based services. Promoted from Flutter Trainee to Flutter Developer during the tenure based on performance and project contributions.

PROJECTS:

Name : Parryware Partner – Retail Loyalty App

Skills : Flutter, GetX, REST API, Firebase, Local Storage

Project Description :

- Parryware Partner, a retail loyalty app with 1,00,000+ installs, enabling retailers to upload bills and manage multiple reward schemes.
- Developed secure authentication, scheme-based reward tracking, and real-time data synchronization using REST APIs.
- Built scalable UI flows using GetX for state management and optimized app performance for high user traffic.

Name : Parryware Bandhan – Technician Loyalty

Skills : Flutter, GetX, REST API, Local Storage

Project Description :

- Built Parryware Bandhan, a loyalty and bill-tracking app used by 1,00,000+ plumber technicians across India.
- Delivered bill upload, reward tracking, and user engagement modules with real-time backend integration.
- Designed scalable architecture using GetX and optimized workflows for low-end Android devices.

Name : RBBPL Hive – Sales Tracking App

Skills : Flutter, GetX, Google Maps API, REST API

Project Description :

- Developed RBBPL Hive, a GPS-based sales force tracking application for attendance, target management, and daily activity logging.
- Implemented location tracking, travel distance calculation, and performance reporting features.
- Built dynamic dashboards and real-time data sync using REST APIs and GetX state management.

Education

Aditanar College of Arts and Science, Tiruchendur, Thoothukudi District

(06/2020 - 06/2023)

B.Sc Computer Science
