Hackerrank: <https://www.hackerrank.com/profile/pkrupapkrupa484>

A dedicated IT graduate with strong knowledge in SQL, Java, HTML, CSS, and JavaScript. Hands-on experience through academic and internship projects in backend development, database management and front-end design. Skilled in understanding application logic, building structured and user-oriented systems. Strong problem-solving skills, teamwork and eagerness to learn. Currently enhancing technical skills and seeking an entry-level Software Engineer role to contribute and grow in a professional environment.

Experience

QSpiders Software Training Institute | Jul 2025 – Present | Professional Training - Full Stack Java Development

- Gained hands-on experience in Core Java, Advanced Java, SQL, HTML, CSS, and JavaScript through real-time coding exercises and mini-projects, strengthening both front-end and back-end development skills.
- Learned basic backend concepts, including how data is managed and connected using Spring, Servlet, JSP, Frameworks-Spring, Spring MVC, Spring Boot, Hibernate, Java-Spring framework, REST webservice

Jun 2024 | Accent Techno Soft | Full Stack Development - Internship

- Gained hands-on experience in developing complete web applications by working on both front-end and back-end technologies, including building user interfaces, writing server-side logic in Python, and connecting applications to databases.
- Developed problem-solving, debugging, and teamwork skills by completing real-time tasks under guidance, understanding project workflows, and following basic professional practices like clean coding and structured development.

May 2024 | Techno Hack Solution | Web Development – Internship

- Learned to design and develop responsive and user-friendly websites using HTML, CSS, and JavaScript, while focusing on layout design, styling, and improving overall user experience.
- Understood how real-world websites function by working on live features, fixing front-end issues, improving website performance, and learning how front-end integrates with back-end systems.

Academic Projects

Daily Expense Tracker | Python & Django

Developed a web application to track daily expenses, integrating an SQL database for storing records and implementing features like data entry, updates, and expense reporting to help users monitor their spending effectively.

Student Attendance Management System | Java & SQL

Built an attendance management system with user authentication, database connectivity, and automated alerts, helping streamline attendance tracking and improve communication efficiency.

Accomplishments: Runner Up at Zonal Level Throwball - Thiruvavarur District | College Level Cricket Player | Team Leader in Academic and internship projects

Certification: Full Stack Development – Qspider Software Institute (ongoing) | Python Programming – Cybernaut | Internship Completion Certificate – Web Development, Full Stack

Tech Skills: HTML | CSS | JavaScript | Reactjs | Java | Sql | Servlet | JSP | Frameworks-Spring | Spring MVC | Spring Boot | Hibernate | Java-Spring framework | REST webservice

Soft Skills: Leadership | Team player | Adaptability | Time management

Qualification: B.Tech – IT (CGPA: 7.76) | Vivekanandha College of Engineering for Women | 2021 – 2025
