## Summary:

Full Stack Developer with hands-on experience in MERN Stack (MongoDB, Express.js, React.js, Node.js), PHP, Python and MySQL. Skilled in developing scalable web applications, RESTful APIs, and responsive user interfaces. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, and database optimization. Experienced in integrating AI-driven features into applications. Seeking an entry-level Software Engineer role.

## EDUCATION

### Adhiyamaan College of Engineering

Master of Computer Application

8.0/10.0(CGPA)

(Sep 2024 – Apr 2026)

### KMG College of Arts & Science

B.Sc, Computer Science

8.0/10.0(CGPA)

(Jun 2021 – May 2024)

## TECHNICAL SKILLS

**Programming Languages:** Python

**Web Technologies:** HTML, CSS, PHP, JavaScript, Tailwind CSS

**Frontend Frameworks:** ReactJS

**Backend Technologies:** Node.js, Express.js

**Databases:** MySQL, MongoDB

**Data & Visualization Libraries:** Pandas, NumPy, Matplotlib

**Tools:** Git, GitHub, Postman, VS Code

**Additional Skills:** Junior Typist, Good Communication Skills, Team Collaboration

## EXPERIENCE

### Technical Intern

(December 2025 – April 2026)

KeyKoders

Tambaram, Chennai

- Developed responsive web applications using React.js, PHP, HTML, CSS, JavaScript, and MERN stack technologies, delivering scalable and user-friendly solutions.
- Built and maintained RESTful APIs, optimized MySQL databases, and integrated frontend and backend systems for efficient data handling and application performance.
- Conducted technical training and development sessions while delivering PHP-based projects integrated for the Trainers Hub platform, enhancing practical learning and project execution.

### Web Developer (Internship)

(July 2025 – August 2025)

Apex Planet

Remote

- Developed responsive and dynamic web applications using PHP, MySQL, HTML, CSS, JavaScript, and REST-based workflows.
- Designed and optimized relational databases, SQL queries, and backend functionality to improve application performance and scalability.
- Implemented CRUD operations, form validation, server-side scripting, and debugging techniques to ensure secure and efficient web application.

## PROJECTS

### Farmchainx | React.js, MongoDB, GroqAI

- Built a full-stack web application using React.js, Node.js, Express.js, and MongoDB for seamless frontend-backend integration.
- Integrated GroqAI to implement AI-driven data processing, analytics, and workflow automation features.

### Fintracker | ReactJS, MongoDB, Web Speech API

- Built a MERN-based personal finance tracking application enabling users to manage expenses, budgets, and transaction history efficiently.
- Integrated voice-enabled navigation and expense entry using the Web Speech Recognition API, enhancing accessibility and user interaction.
