PROFESSIONAL SUMMARY

Results-driven Flutter Developer with hands-on experience building scalable, user-friendly mobile applications across diverse domains including real estate, lifestyle, and social platforms. Skilled in leveraging AI tools — ChatGPT, Gemini, DeepSeek, and Claude — throughout the full development lifecycle to accelerate delivery, enhance code quality, and solve complex problems efficiently. Passionate about clean architecture, high-performance UI/UX, and real-world impact.

WORK EXPERIENCE

Software Developer – Flutter

Soft Hands Software Services | Full-Time | Present

My World App

- Developed a multi-feature lifestyle application for diary management, trip tracking, health records, and document storage.
- Implemented advanced search functionality using time and location-based filtering.
- Improved user experience through responsive UI design and optimized mobile performance.
- Utilized AI tools (ChatGPT, Gemini, Claude) to optimize feature logic and accelerate development.

Saloon CRM App

- Designed and developed a CRM application for salon business management.
- Built modules for appointment booking, customer management, service tracking, and business reports.
- Enhanced operational efficiency through digital workflow automation.
- Used AI-assisted development (ChatGPT, DeepSeek, Claude) for rapid prototyping of CRM modules.

Oxygen-Tree App

- Created a community-based social application focused on environmental awareness and tree plantation tracking.
- Implemented user engagement features and activity tracking systems.
- Leveraged AI tools (Gemini, Claude) for content structuring and UI optimization.

E-Car Parking App

- Built a smart parking management application with real-time slot tracking.
- Implemented vehicle entry/exit management, complaint handling, maintenance workflows, and payment management.
- Improved monitoring and operational control for parking administrators.
- Leveraged AI tools (ChatGPT, DeepSeek, Claude) for logic optimization and faster iteration.

MMS App – Manju Groups Real Estate Management System

- Developed an end-to-end real estate management application for employees, clients, and management teams.
- Automated property management workflows and centralized business operations.
- Implemented role-based functionalities and workflow tracking.
- Used AI-assisted development (Gemini, Claude) to streamline complex business logic.

PEAS – Prediction Enabled Astrology Software

- Developed an astrology app with birth chart analysis, daily horoscope, lucky number, Lagnam, Dhasa Bhukthi, and marriage matching features.
- Implemented business compatibility and AI-based astrology prediction functionalities.
- Built intelligent astrology prediction modules for personalized user insights and guidance.
- Designed a responsive and user-friendly Flutter mobile experience.

Team Email - Team-Based Email Routing System

- Developed an automated support email routing system.
 - Eliminated dependency on a shared inbox by assigning emails directly to relevant product teams.
 - Improved internal communication efficiency and issue tracking.
 - Used AI tools for workflow design and automation logic.
-

TECHNICAL SKILLS

Mobile Development: Flutter (Expert), Dart , UI/UX.

Programming Languages: C, C++, Java, Python – Logical Thinking & Problem Solving

Backend & APIs: REST API Integration & Testing, Firebase, SQL (Basic)

AI Tools: ChatGPT, Gemini AI Studio, DeepSeek, Claude – Used across development, debugging, architecture, and content workflows

Version Control & Tools: Git (GitHub), VS Code, Postman, Antigravity

EDUCATION

B.Sc. Computer Science

Computer Science (B.Sc.)

University of Madras (Affiliated College), 2021 – 2024

COLLEGE PROJECTS

Salesforce Flutter App – Final Year Project

Technologies: Flutter, Dart, Firebase

- Developed a multi-product sales and employee management system.
- Implemented role-based access control for RSM, ASM, and ASO users.
- Built features including attendance tracking, order management, leave requests, feedback handling, and real-time notifications.
- Integrated Firebase for authentication and real-time data management.

My Thirukkural App

Technologies: Flutter, Dart

- Developed a beautifully animated and ad-free mobile application for exploring Thirukkural.
 - Implemented search functionality using Kural words, Athikaram, and themes.
 - Focused on smooth UI animations and excellent user experience.
 - Leveraged AI assistance (Gemini, Claude) for UI/UX refinement and content structure.
-

CERTIFICATIONS

- PG Diploma in Software Development
 - Professional Flutter Development
 - Python & Soft Skill Training (Bhumi NGO)
-

ACHIEVEMENTS & AWARDS

- 1st Prize – Code Debugging, Karpaga Vinayaga College of Engineering & Technology
 - 1st Prize – Code Debugging, Sri Sankara Arts & Science College, Kanchipuram
 - 1st Prize – Technical Quiz, Karpaga Vinayaga College of Engineering & Technology
 - 1st Prize – Technical Quiz, SRM Institute of Science & Technology
-

LANGUAGES

- **Tamil** – Native Proficiency
- **English** – Professional Working Proficiency
