 Chennai

Objective

Aspiring Flutter Developer with 1.10 year of hands-on experience in building cross-platform mobile applications. Proficient in Dart, Flutter, REST APIs, and GraphQL, with a strong focus on developing scalable, high-performance applications. Passionate about enhancing user experience and contributing to innovative and dynamic projects.

Professional Experience

Flutter Developer, *Instiqa*

May 2025 – Present
Chennai

- **Engineered** and integrated RESTful APIs, WebSockets, and GraphQL to deliver real-time, high-performance application features, including advanced data projections for optimized API responses.
- **Delivered** fully responsive, pixel-perfect UIs by collaborating with senior developers, ensuring exceptional user experience across devices.
- **Optimized** application performance and maintainability by implementing robust state management using Provider.
- **Enhanced** an Employee Management SaaS platform by identifying and resolving critical bugs under aggressive deadlines, improving reliability.

Flutter Developer, *Lumy Software Solution*

Feb 2024 – May 2025
Chennai, India

- Developed and maintained Flutter-based mobile applications for various clients.
- Integrated RESTful APIs, Firebase Authentication, and Firestore to ensure seamless user experiences.
- Collaborated with senior developers to implement responsive UI and state management using GetX.
- Worked on Google Maps integration for location-based services in apps. - Resolved bugs and improved app performance through efficient coding practices.

Education

Master of Computer Application,, Sri Venkateswara College of Engineering
Anna university

2021 – 2023

Bachelor of Computer Application, DRBCC Hindu College
Madras University

2019 – 2021

12TH, CSI Goudie Higher Secondary School

2018

10Th, CSI Goudie Higher Secondary School

2016

Skills

Flutter (Cross-Platform Development)

Dart Programming

REST API Integration & GraphQL

Firebase (Auth, Firestore, FCM)

State Management (GetX, Provider, Riverpod)

Responsive UI Development

Real-time Features (WebSocket)

App Deployment (Play Store & App Store)

Google Maps Integration

Projects

Barrow – Custom CRM & Workforce Management System

Technologies Used: Flutter, Dart, Provider, Firebase,websockets

- Developed CRM modules including Job Diary, Timesheet, Site Audit, Meeting, Invoice, Asset & Attendance.
- Implemented real-time chat using WebSocket and role-based access for Admin, Manager & Employee.
- Built responsive UI screens with Provider state management and integrated REST APIs for real-time sync.

Davos taxi

Technologies Used: Flutter, Dart, GetX, Google Maps API, Firebase, REST API

Description: Developed a ride-hailing mobile application for taxi drivers and users, integrating real-time ride tracking, OTP-based authentication, and in-app navigation. Implemented features like dynamic ride requests, route optimization, and seamless UI for booking and ride completion.

Grivalam

Technologies Used: Flutter, Dart, GetX, Firebase

Description: Developed a feature-rich bus booking application that allows users to check available travel dates, view available seats, and generate tickets seamlessly. Integrated Firebase for data storage and retrieval, ensuring real-time updates and a smooth booking experience.

Kerala Cabs (Driver & User)

Technologies Used: Flutter, Dart, GetX, Firebase

Description: Developed a cab booking application that allows users to book rides, track drivers in real-time, and manage ride history. Integrated Firebase for secure authentication and ride management while ensuring a seamless user experience with an attractive UI.

Certificates

- Training and Certification in Greens technology
